# Poldina micro _Table lamp

Cordless, rechargeable, battery table lamp. A touch control on the top of the lamp head allows you to switch the light on, adjust its intensity and select its color temperature. And thanks to its high IP rating, the lamp can also be used outdoors (except for the models with a galvinized finish that are not recommended for continuous outdoor use). An electronic control system monitors and indicates the remaining battery power to ensure recharging is optimized and always performed correctly. The lamp comes with a contact charging base. Battery charger not included.The lamp can be customized with a ceramic cover that can be purchased separately.
