

Stellar Nebula - Cluster - Circular

BIG - Bjarke Ingels Group

IP20  

LUMINAIRE

- Watt: **55W**
- Delivered lumen output: **3331lm**
- CCT: **3000K**
- Efficiency: **83%**
- Efficacy: **60.57lm/W**
- CRI: **90**

DESCRIPTION

Stellar Nebula is a family of lamps designed by BIG to interpret and enhance the art of glassblowing through innovative PVD finishing techniques. The values, roles, and boundaries of industrial and artisanal production lie at the heart of this design concept, which aims to express a new idea of productive uniqueness.

The diffusers' shapes are created through a glassblowing process. Craftsmanship and industrial innovation merge in the beauty of the material, revealing the magical interaction between glass and light.

FEATURES

- Product Code: **0152420APP**
- Colour: **Iridescent**
- Installation: **Suspension**
- Material: **Steel and aluminum frame, technopolymer reflector, blown plate- glass diffuser with dichroic treatment.**
- Series: **Design Collection**
- design by: **BIG - Bjarke Ingels Group**

DIMENSIONS

- Diameter: **300 mm**
- Base Diameter: **560 mm**
- Max Height from ceiling: **1720 mm**
