

Pirollo _bottle

Pirollo, inspired, like Bilia, by traditional games steeped in memories, is a collection of borosilicate glass tumblers and bottles. The shape of the tumbler is inspired by a spinning top: a small projecting element on the bottom of the tumbler allows it to rotate on its own axis, and rest at an angle on the table. The cup is made of clear glass, whereas the distinctive detail is available in six colours: white, clear, black, amber, blue and green. The bottles, elegantly shaped like a drop, are identified by four stoppers. They are all different in shape (inspired by the silhouettes of chess pieces) and colour (white, black, amber and blue).

PI015

	White	00		Black	02
	Amber	04		Blue	07
