

SISSI CHAIR

Ludovica + Roberto Palomba

Sissi is a vanity and sculptural object, versatile and contemporary. "It's a modern design that boldly nods to the past and the feminine world. The merging rings appear to have been hand-bent by those Viennese craftsmen who, over a century ago, gave the world an archetype of elegance and design. Sensual connections make Sissi a refined and sculptural object, just like the quintessential Viennese chair, famous for its curved wood. A chair that is completed by its seat upholstery, an integral part of the design itself, which, just like a self-assured and self-confident woman, changes her outfit according to her mood." Ludovica, Roberto Palomba.
